HPT 2206 – INDICATORS AND MEASUREMENTS OF COMMUNITY HEALTH

Time: Two (02) hours

Answer all four (4) questions.

1. A Chief Minister of a province has decided to appoint health promotion officers to the cities in the province as a pilot project to carry out health promotion activities as a long term solution to address non-communicable diseases. As the leader of the health promotion team you are asked to prepare a plan for next five years to get funds approved by the Provincial Council.
 - a) List the main steps in planning of this project. (25 marks)
 - b) Identify five (5) main stakeholders of the project. (25 marks)
 - c) Explain briefly the appropriate methods of gathering necessary information from the stakeholders mentioned in 1. a). (50 marks)
2. a) Describe the criteria for selection of a good indicator to monitor a health promotion programme. (30 marks)
- b) What is a result chain? (20 marks)
- c) Identify indicators for each step in the result chain to monitor a health promotion project on water and sanitation among a displaced community (due to a landslide) in a divisional secretariat area. (50 marks)
3. a) Compare and contrast the terms 'monitoring' and 'evaluation'. (50 marks)
- b) Briefly describe the steps in carrying out a focus group discussion. (50 marks)
4. a) Describe briefly the outcome and impact of a maternal health programme in a MOH area using different indicators. (50 marks)
- b) Write a short note on Sustainable Development Goal 3 (SDG3). (50 marks)
