**B.Sc. (General) Degree in Health Promotion
Third Year – Semester II Examination – April/May, 2016**

HPT 3107 – FUTURE DIRECTIONS

Time: 1 hour 30 minutes.

Answer all three (3) questions.

1. a) Using relevant examples, discuss critically the difference between persisting changes and non-persisting changes of a community based intervention in health promotion. (30 marks)
- b) Explain how you would assure community involvement in converting non persisting changes into persisting changes at the community. (70 marks)
2. Tobacco and alcohol consumption has been identified as major health problems among adolescents in Sri Lanka
 - a) Design a health promotion intervention to address these problems at the school level. (50 marks)
 - b) Discuss the short term and long term changes they would achieve in the intervention you mentioned in above 2 (a). (50 marks)
3. A health promotion field facilitator has planned an intervention to address risk factors for non-communicable diseases among elderly women in a selected community.
 - a) Describe possible short term and long term changes that you expect. (50 marks)
 - b) Explain briefly your logic in addressing non-communicable diseases in this population. (50 marks)
