4. Following scenario has been reported by a community facilitator who initiated an intervention with a group of school children to improve their academic performance.

“Initially we met the principal to get the permission. The principal instructed one teacher to organize the programme and support us. The teacher then filled the auditorium with all students of that school who will sit for G.C.E. (O/L) examination this year and next year. There were 145 students in the hall. I delivered a talk using power point slides on how to organize ourselves to study better and improve. I gave them a timetable to follow until they sit for G.C.E. (O/L) examination.”

- a) Comment on the initiation of this intervention by the facilitator. **(30 marks)**
- b) Describe **three (03)** indicators that could be used to assess the outcome of this intervention. **(30 marks)**
- c) Discuss how to improve this intervention. **(40 marks)**
