**Time: 1 ½ hours**

---

**Answer all three (03) questions**

**Illustrate your answers with labeled diagrams where appropriate.**

1. Answer following questions which are based on your field practical attachment.
  - a) Provide an example of a health problem that your group has clarified with the assigned community. *(05 marks)*
  - b) List five underlying determinants of the health problem you mentioned above. *(25 marks)*
  - c) Outline the methodology you chose to empower the people in the community that you have mentioned in part 'a'. *(70 marks)*
2. During an initiation of a community based health promotion project, the facilitator requests the parents to develop a list of characteristics they wish to see in their grownup child. Following are some of their choices,
  - i. A good citizen
  - ii. Obedient
  - iii. Independent
  - iv. Well occupied (Example-: Doctor, Engineer)
  - a) Based on health promotion concepts, provide a brief comment on each of the above given characteristics. *(60 marks)*
  - b) Provide an outline of a talk that you will deliver to a group of parents in a weighing clinic to initiate a health promotion process in their village. *(40 marks)*
3.
  - a) Explain the importance of a persons own attitudes and competencies in facilitating health promotion activities. *(40 marks)*
  - b) Discuss how you address the attitudes and competencies in your own group, in order to improve their ability in working with communities. *(60 marks)*
