ZOO 1201 - INVERTEBRATE DIVERSITY

Index No.:

Time: Two (02) hours

Answer question 1 (compulsory) and three other questions of your choice.

1. a) Describe what is radial symmetry and name two phyla that show this type of body symmetry.

.....

.....

.....

.....

.....

.....

.....

(20 marks)

- b) Contrast radial symmetry to biradial symmetry.

.....

.....

.....

.....

.....

.....

(24 marks)

- c) Briefly explain the advantages of having a bilaterally symmetric body.

.....

.....

.....

.....

(24 marks)

- d) Bilateral symmetry is strongly associated with cephalization. Briefly explain why this is?

(32 marks)

2. Compare and contrast the basic structure and body organization of Cnidarians and Ctenophores.
3.
 - a) Describe the characteristic features of the Platyhelminthes.
 - b) Distinguish the different classes of Platyhelminths using the major characteristics of each class.
