HPT 2206 – INDICATORS AND MEASUREMENTS OF COMMUNITY HEALTH

Time: Two (02) hours

Answer all four (4) questions.

Illustrate your answers with labeled diagrams where appropriate.

1. a) Describe the term “Health Indicators” (40 marks)
b) What are the characteristics of a good indicator? (60 marks)
2. a) List four ethical issues that need to be considered in community interventions and measurements? (30 marks)
b) Giving examples describe the levels of confidentiality in community measurements. (70 marks)
3. a) Briefly describe ‘efficiency’ and ‘effectiveness’ in health promotion programs. (50 marks)
b) Compare and contrast ‘monitoring’ and evaluation’ in health promotion programs. (50 marks)
4. As a student group you are planning to implement a program to reduce the tobacco use in a village using health promotion strategies.
 - a) Briefly describe the steps you will follow to develop a monitoring and evaluation system (M&E System) to assess the process. (40 marks)
 - b) List 10 outcome indicators you could use in the above program (provide examples when necessary). (20 marks)
 - c) List sources of information for above indicators giving reasons. (40 marks)
